CHESHIRE
CONSERVATORY ROOFS
& HOME IMPROVEMENTS

Panel roof system shown

INSULATED PANEL ROOFS

# Keep the conservatory. Lose the cold.

A solid, insulated roof on the frames you already have. Most are fitted in 1 to 2 days.

From around £3,000

Free visit and written price

10 year workmanship guarantee

# Why it gets so cold in there

Heat rises. Under a plastic or glass roof, it goes straight out.

Most conservatory roofs are polycarbonate: a hollow plastic sheet. In winter, the heat you pay for drifts up and through it. In summer, the sun comes straight in.

An insulated panel is one solid board: an insulating core with a tough skin bonded to each side. It keeps the heat in during winter and keeps the sun's heat out in summer.

## What you notice first

### Warmer in winter

The room holds its heat, so you can sit in it in January.

### Cooler in summer

The sun stops baking the room through the roof.

### Quiet in the rain

Rain becomes a soft patter, not a drum roll.

### No glare

The harsh light from overhead goes.

Panels sit in the roof bars and are sealed to each other and the frames. Panel roof system shown.

### Will it be darker?

A little, overhead. We would rather say so. The glass walls still bring daylight in from the sides, and you still look out on the garden.

# Panels or tiles? An honest look

Both are good roofs. Here is where each one comes out ahead.

| | PANEL ROOF | TILED ROOF |
|---|---|---|
| **Cost** | ✓ Around half the cost of a tiled roof | The bigger job, so the bigger price |
| **Time on site** | ✓ 1 to 2 days | Usually 2 to 5 days |
| **Ceiling** | The underside of the panels, between the roof bars | ✓ Plastered and ready to paint, with spotlights if you want them |
| **Warmth** | Much warmer than plastic or glass | ✓ Warmer again |
| **From the garden** | Still looks like a conservatory | ✓ Looks like part of the house |
| **Light overhead** | Less than glass. Daylight still comes in the sides | ✓ Roof windows can be built in |

## Two prices from one visit

Jerry prices both roofs, so you can choose with the numbers in front of you.

TILED ROOF
**£18,000**

PANEL ROOF
**£7,995**

One Cheshire conservatory, two written quotes. The customer chose panels.

## When we would point you to tiles instead

- ✓ You want a plastered ceiling with spotlights.
- ✓ You want the roof to look like part of the house.
- ✓ You want light overhead from roof windows.

# Good for the house. Good for whoever lives in it next.

1

### Your frames stay

Only the roof is replaced. Frames that still work stay out of the skip.

2

### The heat stays in

A room that holds its heat gives the heating less to do.

3

### Bought once

Roof panels made in Germany, and our 10 year guarantee on the fitting.

## How it works

**1**
Call or WhatsApp Jerry.

**2**
Free visit. Jerry measures up and checks your frames.

**3**
A fixed written price, for panels and for tiles.

**4**
Fitted, usually in 1 to 2 days.

## Talk to Jerry, not a call centre.

Finance is available. Ask Jerry on the visit.

We fit across Chester, Wilmslow, Knutsford, Nantwich, Prestbury, Frodsham, Hale, Alderley Edge, Tarporley, Bowdon and the Wirral.
